Dear Roger:

Thank you for the greetings.

I look forward to your new book whenever it becomes available.

I am working on the 5th edition of Early Paper Money of America so I welcome any suggestions of improvements from you.

My wife and I are totally immersed in our coin museum planning and we are scheduled to open it in October 2006. The display cases are almost complete and the new building is on internal finishing. Our display designs, mountings and descriptions are an enormous workout as well as the security, temperatures, lighting, magnification, etc.

We have a grandchild's wedding coming up and they are going to The Maldives for a honeymoon. They do not know how few people are going to volunteer to chaperone them.

I hope that you and I shall meet somehow, somewhere, some time.

Thrive and never retire. Eric
